

A little good. The whole journey.

A founder-operated demo of the real Uptick application.

Member entry → backed benefit → claim → staff QR → recorded redemption → merchant result → fulfillment failure → recovery.

ONE ORIGINAL OBLIGATION. PRESERVED EVIDENCE.

The recorded sample journey ends with 1 claim, 1 original redemption, 1 incident, 1 recovery and 1 recovery redemption.

These are synthetic records. No hosted members, real SMS, live inventory or commercial commitments were created.

Run it yourself.

1 Open Terminal

Press Command-Space, type Terminal and press Return. Select the project folder using the command below.

2 Create a fresh rehearsal

Run `npm run demo:reset` and wait for it to finish. Run `npm run demo` and leave Terminal open.

3 Open Demo Studio

Visit <http://127.0.0.1:3210/demo>. Use the buttons in order and stay in the same browser. Sample phone: (202) 555-0123; ZIP: 10583.

4 Stop or start over

In the running Terminal, press Control-C. Run `demo:reset`, then demo again. Open a fresh member journey; old sample links stop working.

```
cd /Users/braydenwhite/Desktop/uptick-platform-v0
```

Start in Demo Studio

The launcher creates an isolated four-week sample pilot. The top banner labels the environment on every relevant screen.

DEMO · SAMPLE DATA · NO REAL SMS

[Return to Demo Studio](#)

UPTICK · FOUNDER REHEARSAL

A little good.
The whole journey.

This is the real application with a separate local sample database. No real members, messages, stock or commercial commitments are created.

1 · MEMBER ENTRY

Start with a member

The sample number and ZIP are filled in. Confirm the adult checkbox, request your simulated access link, then open it. Promotional texts are optional.

Open member journey

Sample: (202) 555-0123 · ZIP 10583

2 · BACKED BENEFIT

Claim this week’s coffee

One 12 oz coffee, with no purchase or member payment. Open Your Uptick and claim it to prepare the pass.

Open Your Uptick

3 · STAFF QR

Record redemption

On the claimed pass, choose “Use this pass at Uptick Tap”. Return here, open the sample staff QR in this same browser, and confirm. The button follows the QR’s exact destination. On one laptop, it stands in for scanning at a counter.

4 · RESULTS

See the saved result

The merchant and operator views use these same sample records.

Open merchant view

Help & SMS

For businesses

See the exact weekly benefit

One free 12 oz coffee at Sample Fuel & Market. No purchase or member payment is required. Claim this Uptick opens a private pass.

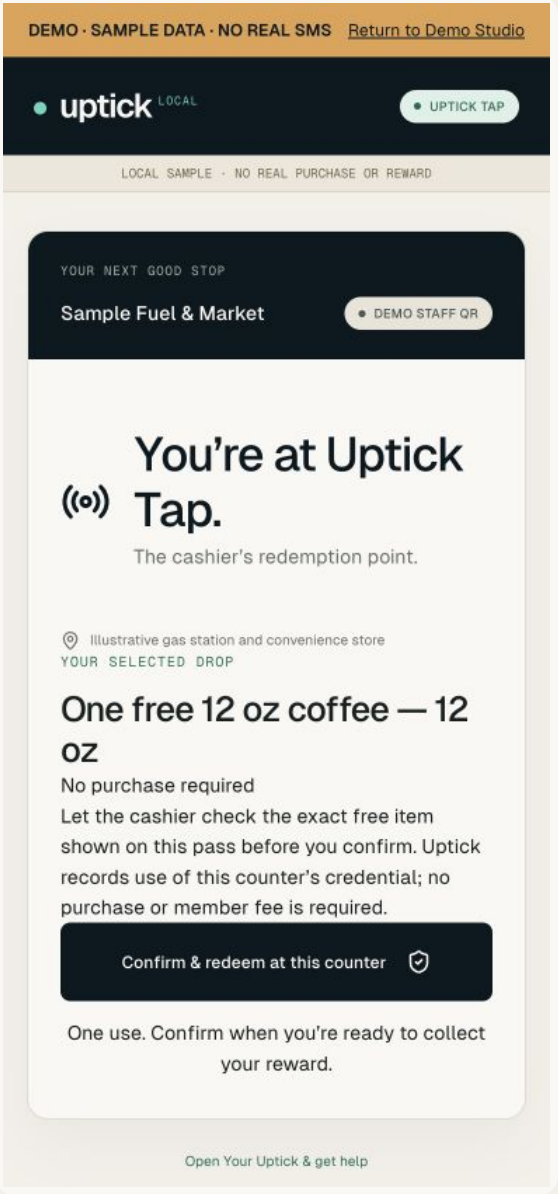

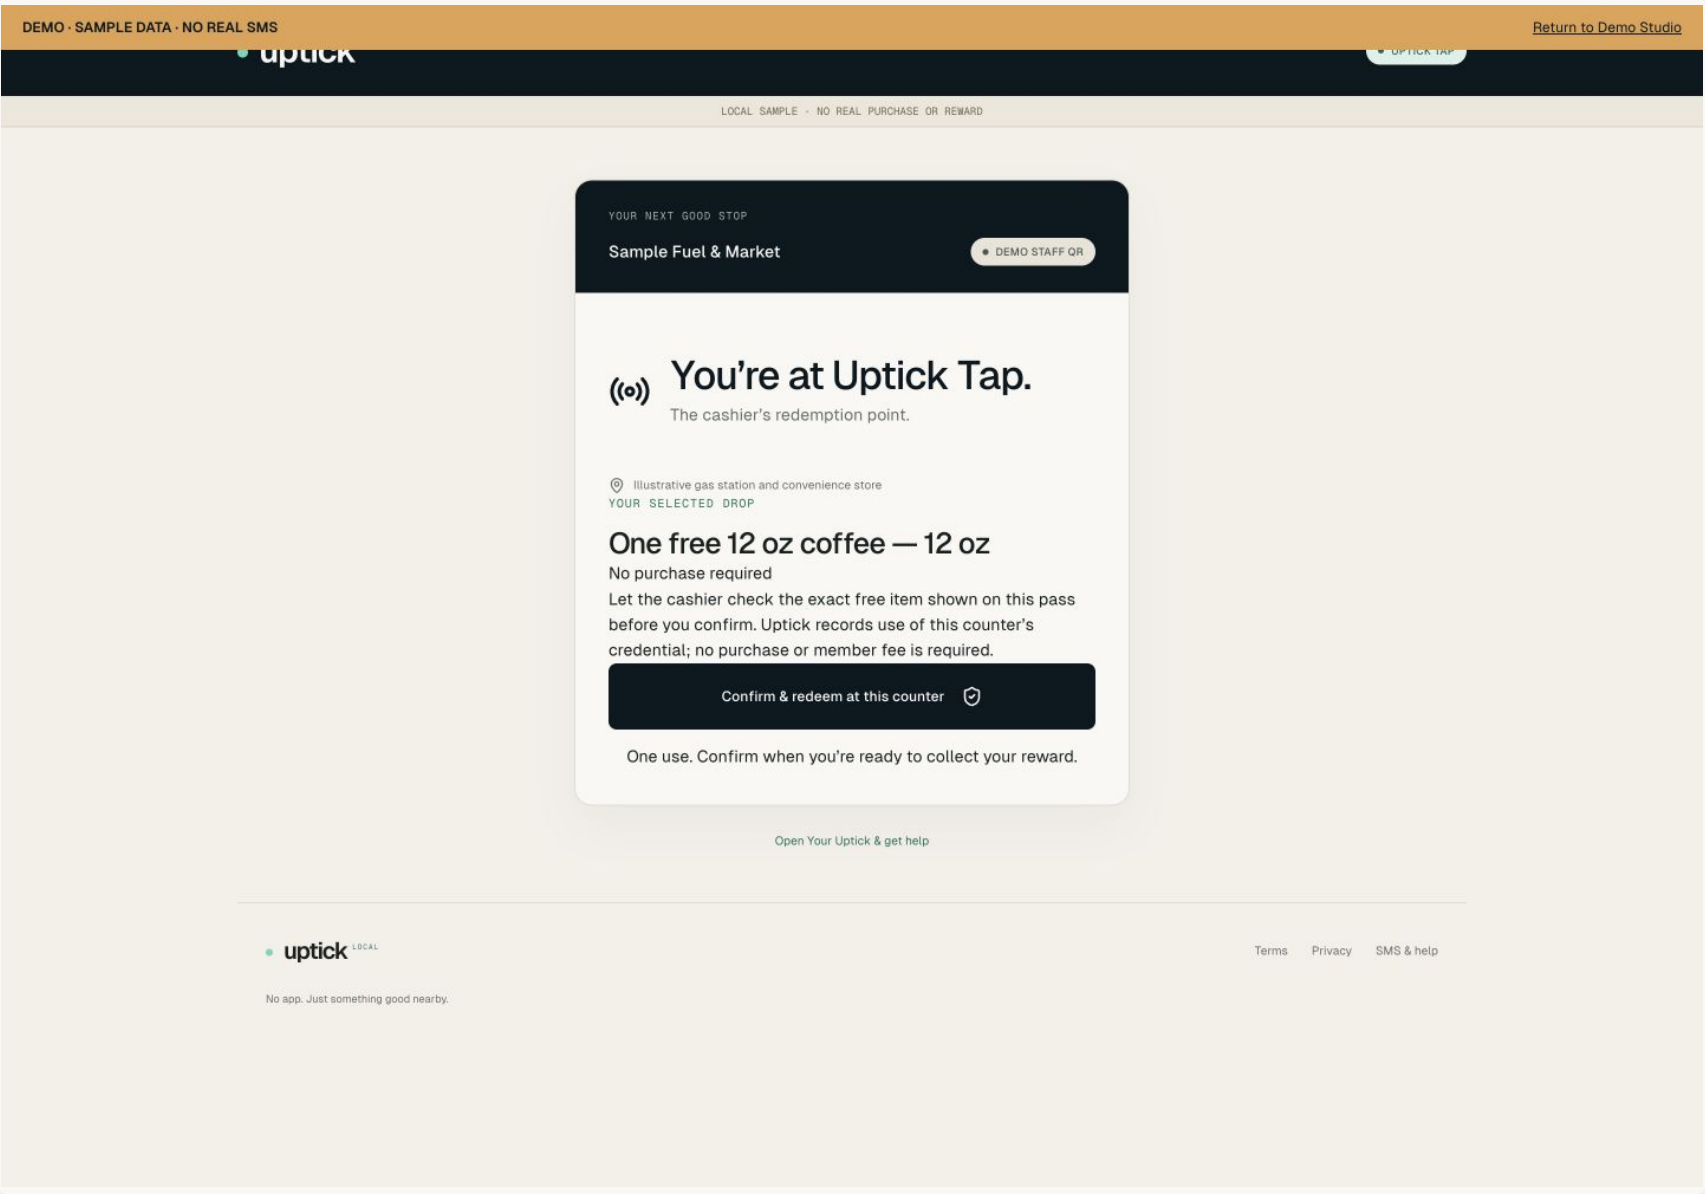

Prepare the claimed pass

Click Use this pass at Uptick Tap. This pairs the saved pass with the staff-presented store credential in this browser.

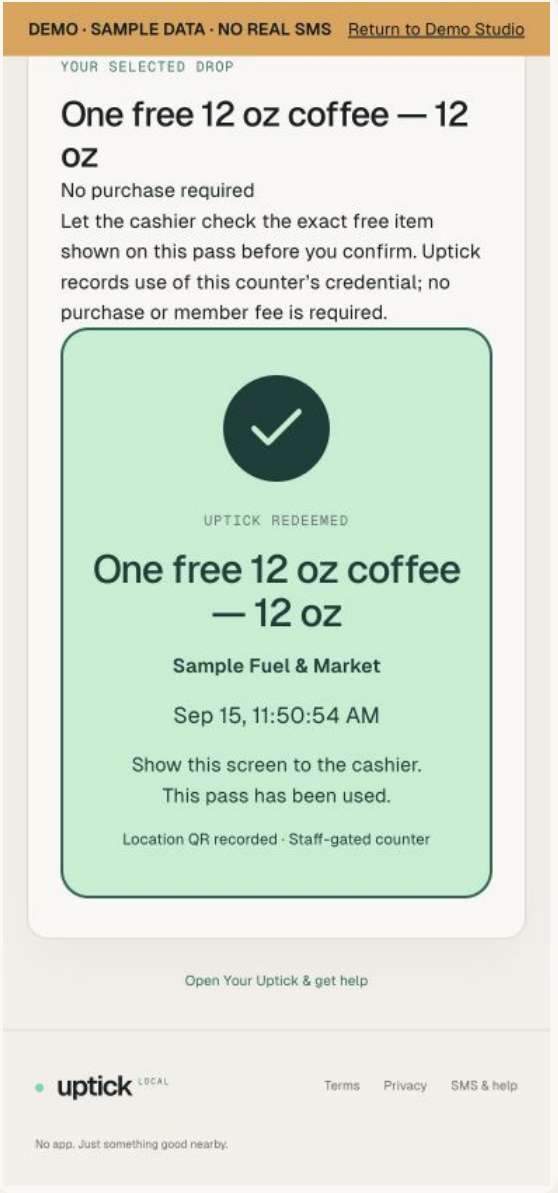

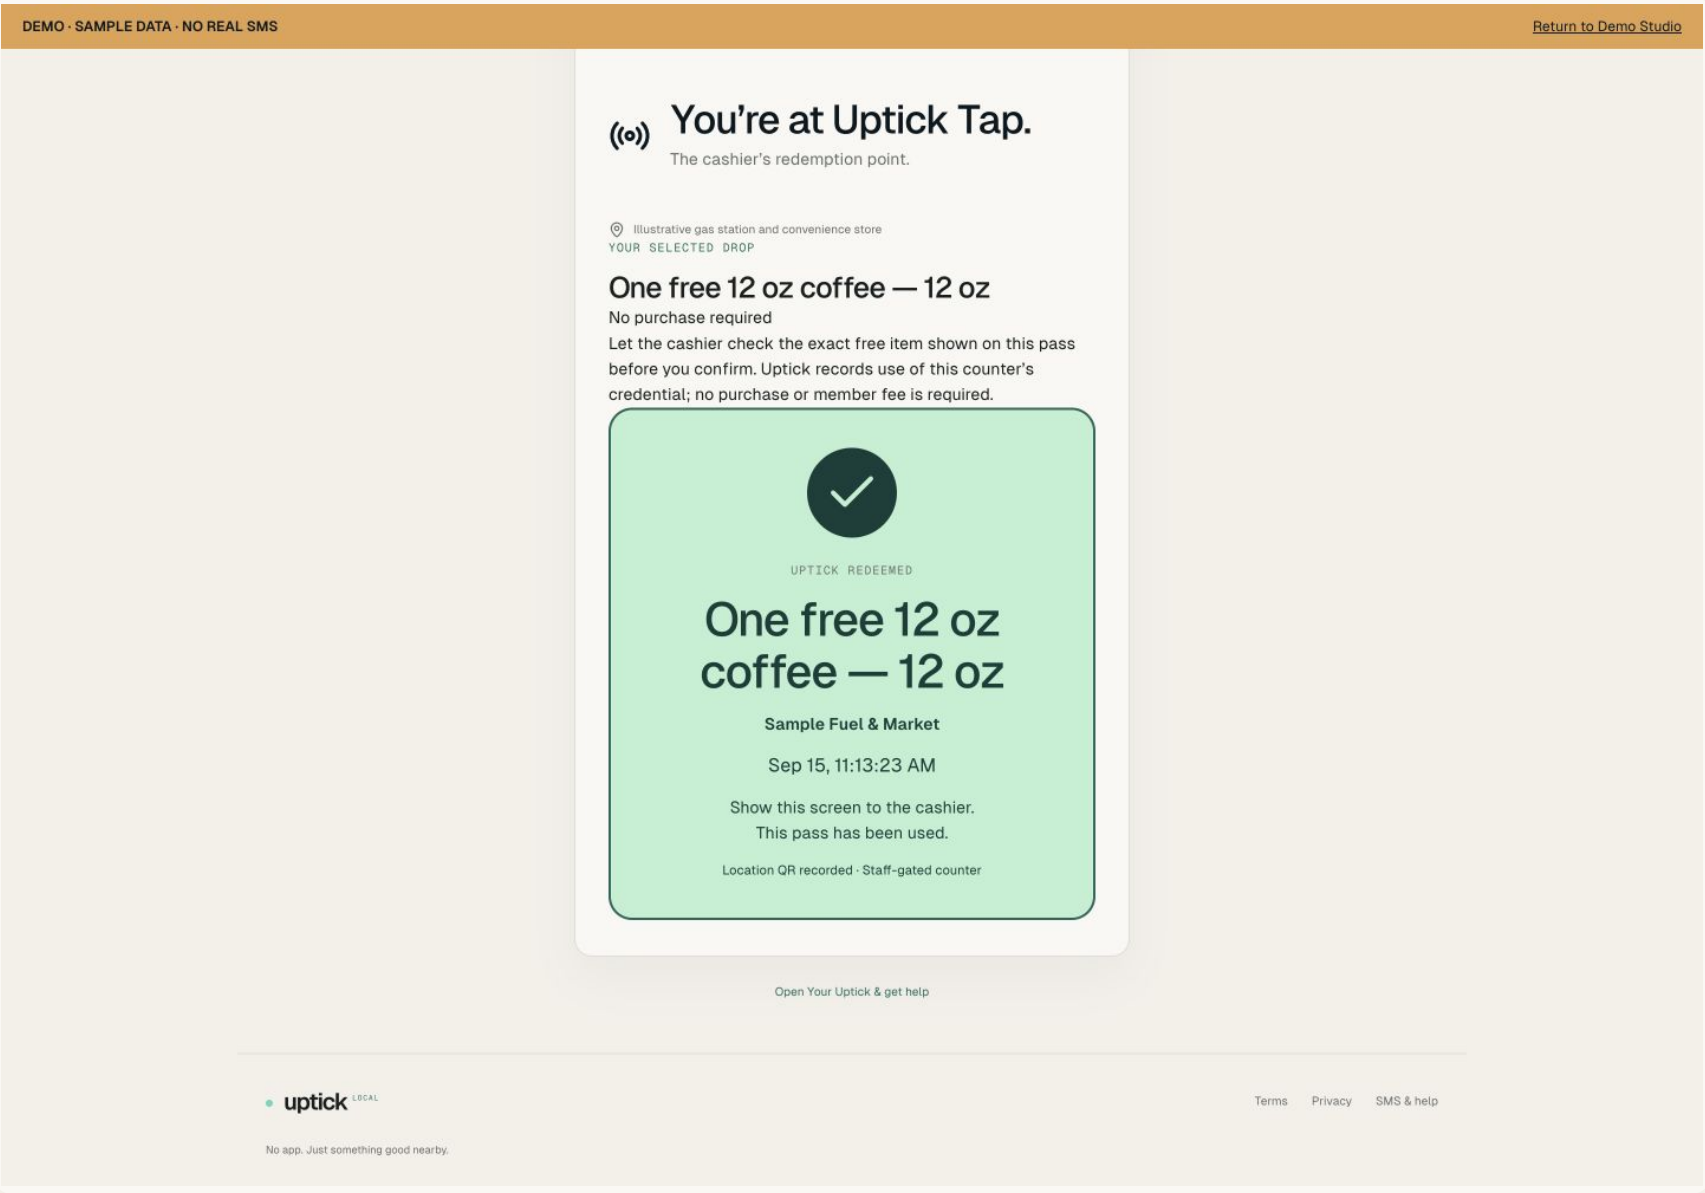

Verify at the sample counter

Return to Studio and open the staff QR destination. On one laptop this follows the exact QR URL instead of scanning it with a second device.

Record redemption

Confirm & redeem at this counter saves the digital event. The result records use of the QR credential; it does not establish purchase or physical handoff.

Show truthful merchant results

The merchant sees one issued placement, one claim and one recorded redemption, without member phone lists or invented sales metrics.

EVIDENCE BOUNDARY

Report a fulfillment failure

The sample coffee runs out before handoff. Report sample stockout records the incident while preserving the original digital redemption.

DEMO · SAMPLE DATA · NO REAL SMS

Return to Demo Studio

Open staff QR destination

Digital redemption records credential use. It does not prove a purchase or physical handoff.

5 · FULFILLMENT FAILURE

The coffee ran out

Record a sample stockout before physical handoff. The original digital evidence stays intact.

Report sample stockout

6 · BACKED RECOVERY

Make the member whole

Issue one sealed bottle of water from separate sample fallback stock. Reopen the member's pass and the staff QR to record recovery.

Issue sample recovery

Return to the member's pass →

Saved sample evidence

claims	redemptions	incidents	recoveries	recovery redemptions
1	1	1	0	0

A recovery serves the original obligation. It is not another paid placement or another member.

Start over

1. Go to the terminal running the demo and press **Control-C**.

2. Run `npm run demo:reset`.

3. Run `npm run demo` and return here.

Reset only removes this demo's database and signing keys. Old demo links stop working.

2. Run `npm run demo:reset`.

3. Run `npm run demo` and return here.

Reset only removes this demo's database and signing keys. Old demo links stop working.

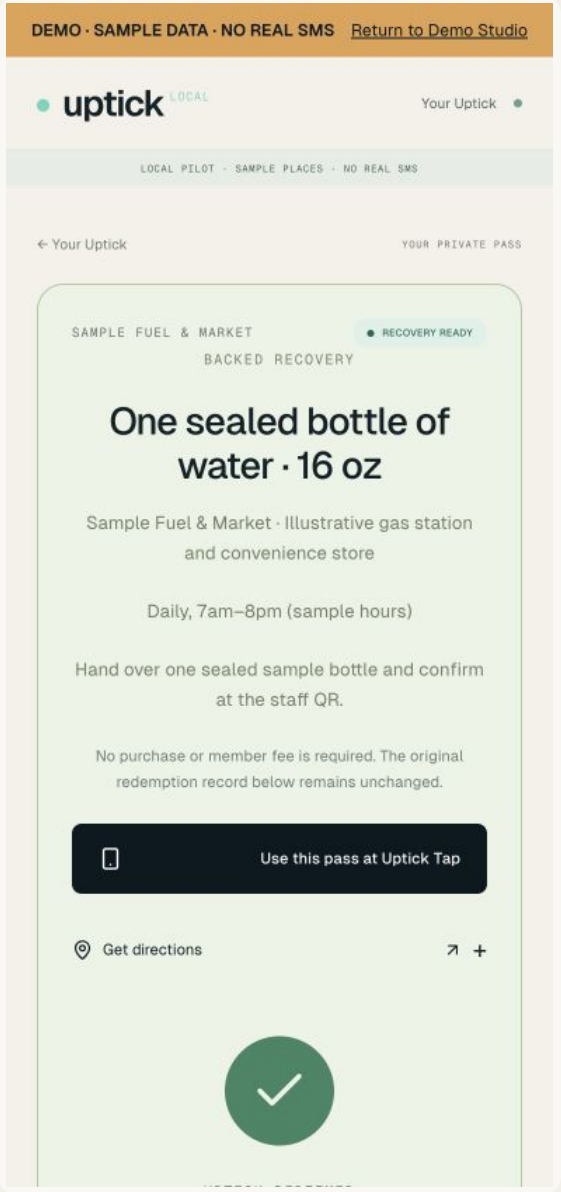

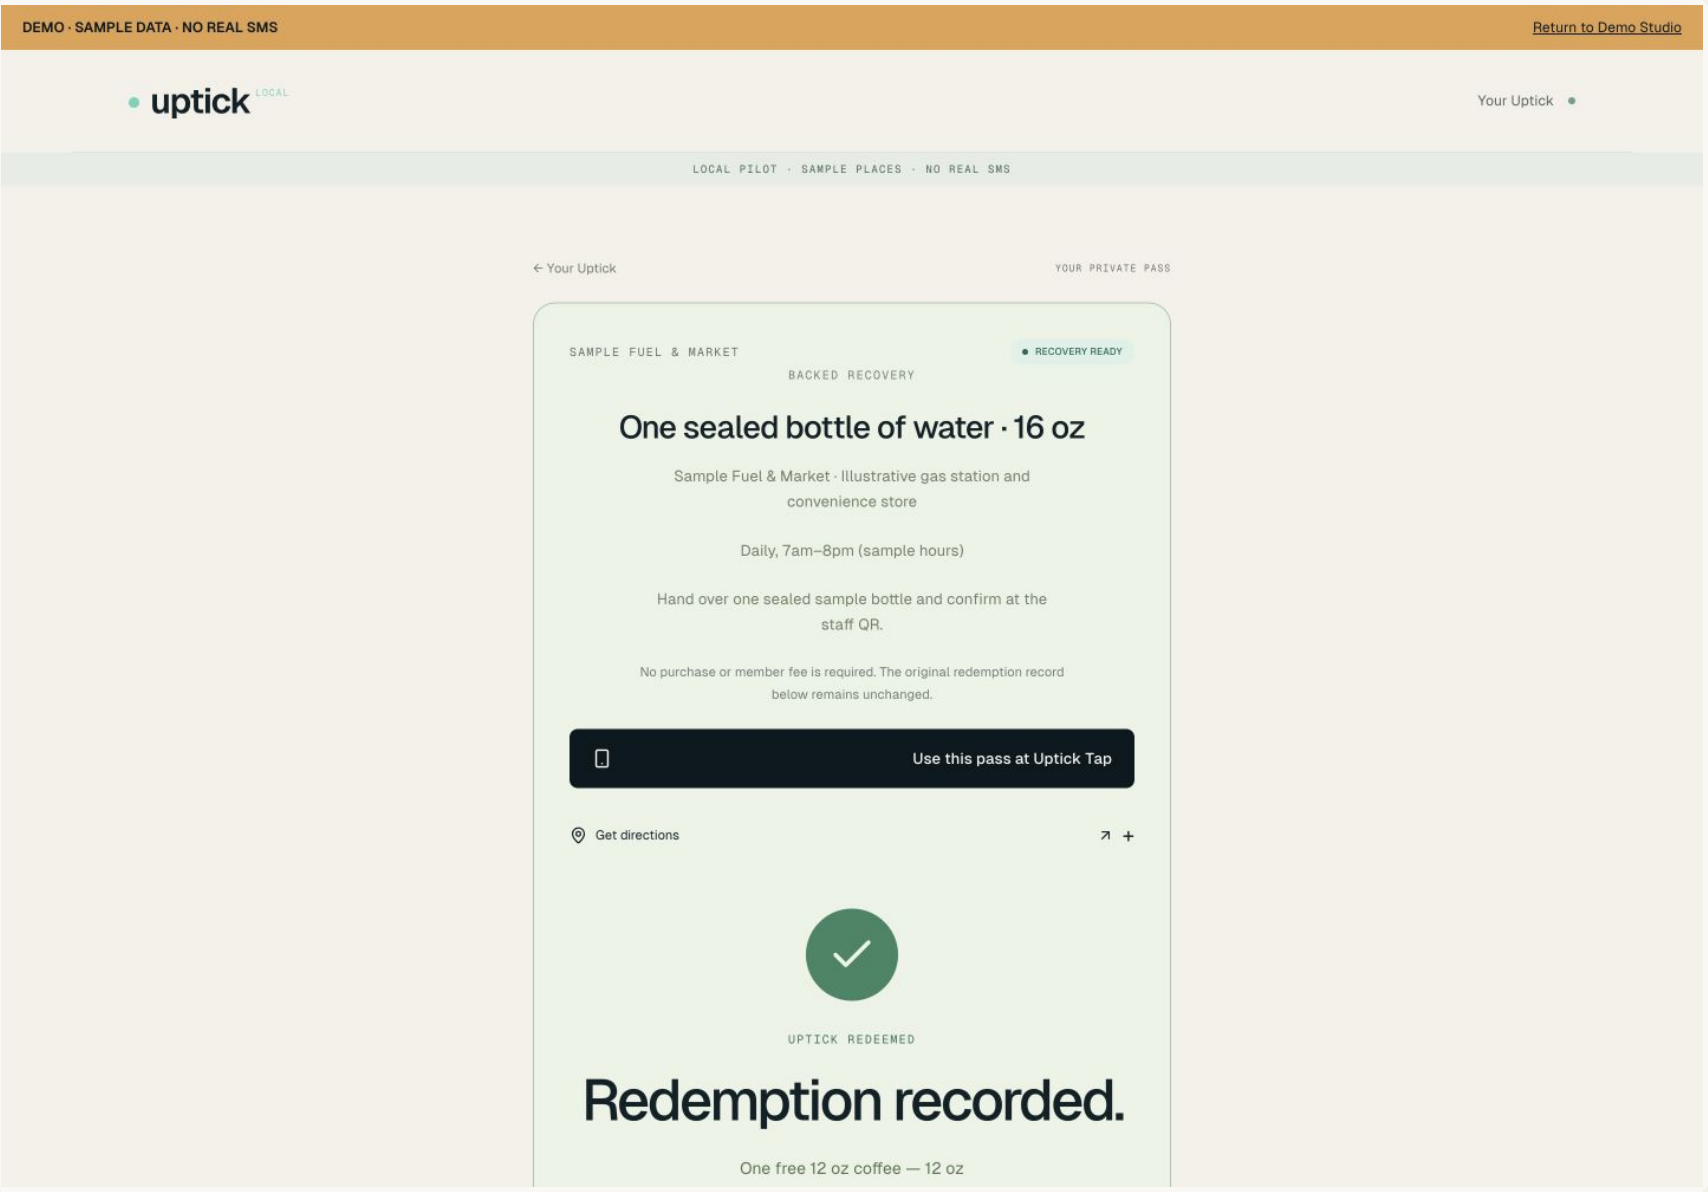

Offer a backed recovery

Issue sample recovery reserves separate bottled-water fallback. Your Uptick shows the remedy alongside the original benefit history.

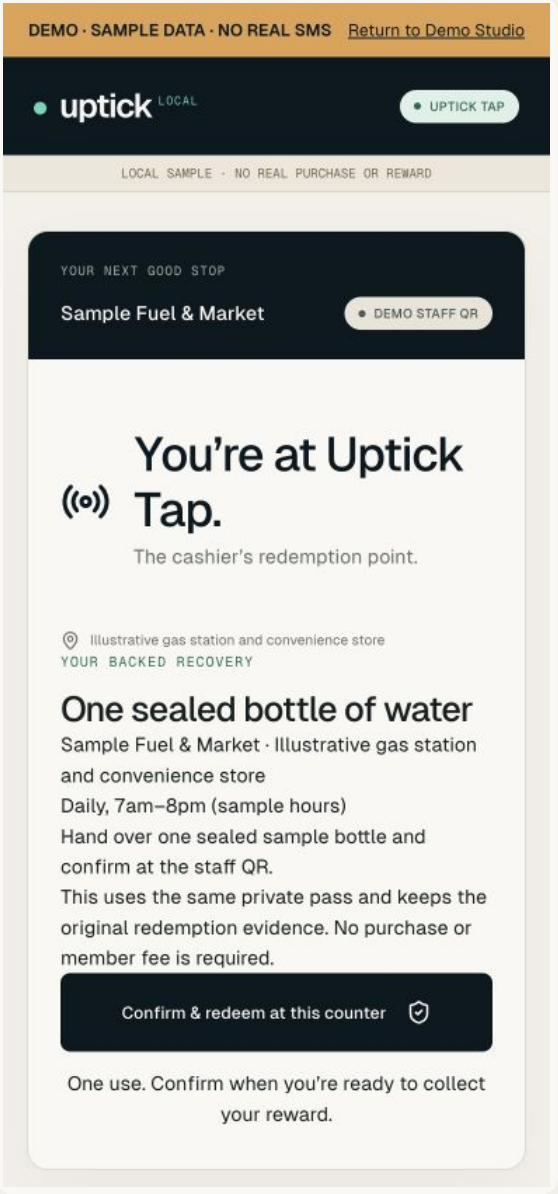

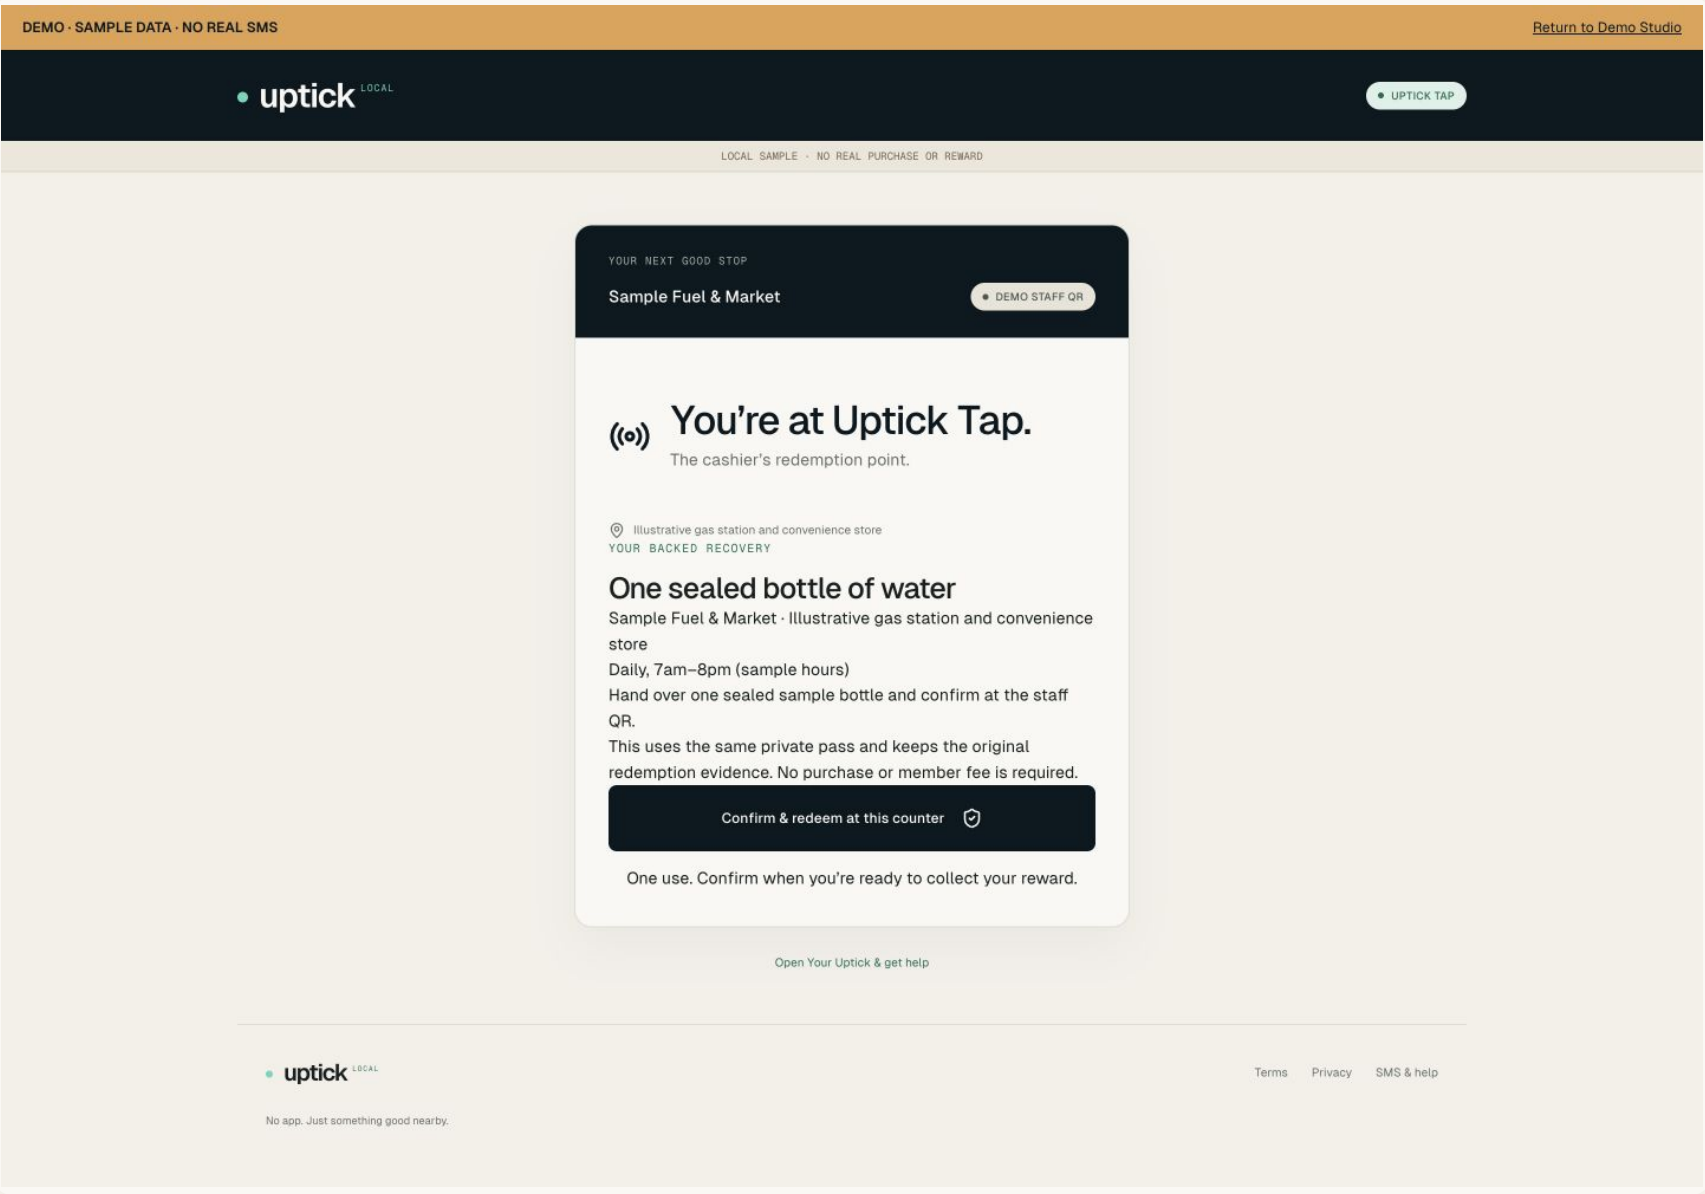

Keep the original evidence

The same private pass shows the bottled-water recovery and the original recorded coffee redemption. Prepare this pass for Tap again.

Verify the recovery item

Open the same staff QR destination. Confirm the sealed bottle of water, with no purchase or member fee.

Finish recovery

The member sees Status: redeemed for the remedy. The original coffee redemption remains visible. This serves one original obligation.

DEMO · SAMPLE DATA · NO REAL SMS

Return to Demo Studio

Your free membership stays active with or without promotional texts.

UPTICK RECOVERY

One sealed bottle of water

Sample Fuel & Market · Illustrative gas station and convenience store

This recovery preserves the original week and does not replace or erase its history.

Daily, 7am–8pm (sample hours)

Hand over one sealed sample bottle and confirm at the staff QR.

Status: redeemed. No purchase or member fee is required.

REDEMPTION RECORDED

A LITTLE SOMETHING GOOD

One free 12 oz coffee – 12 oz

Sample Fuel & Market

UPTICK LOCAL Measure what happened. Build on what works.

Separate demo from launch

The sample operator overview keeps real launch checks visible. A working demonstration is not proof of provider approval or real Market Cell readiness.

Show what the evidence says.

What this demonstrates

The real member, merchant and operator flows work together on isolated sample data. The original obligation and recovery history remain distinct.

What the counts mean

A claim is a saved benefit. A QR redemption is recorded credential use. Neither proves a purchase, a physical handoff or incremental sales. The sample counts are not traction.

Before real members

Commission the exact release and migrations, hosted authentication and recovery, Twilio and signed callbacks, approved policies, support coverage and a real four-week backed Market Cell. Keep enrollment closed until those checks are complete.

Where to continue

docs/DEMO_RUNBOOK.md is the step-by-step launch guide. docs/REAL_ENROLLMENT_RELEASE_TRUTH.md holds the separate current verdicts. docs/REAL_ENROLLMENT_RUNBOOK.md orders the external commissioning work.
